

GPS-5020LC Leakage Current Tester

Features:

- Clear and nice display on high-brightness VFD
- Automatic phase conversion, sound and light warning to protect beyond the limit
- Connect to the outer test voltage
- Remote and status output interface to make operation convenient
- Memory backup function

Specifications

Model	GPS-5020LC
Test Voltage	10~280V
Test Current	0~30mA
Max. Output Power	It is variable with the outer test voltage
Test time	0.5~999s
Voltage Display Accuracy	±5%F.S.
Current Display Accuracy	±5%+20 μA
Remote Control	START,STOP,STARTENABLE, HV ON Display
Signal Input & Output Interface:	Status Output: Pass, U-FALL,PROTECTION,READY,TEST,HV-ON Control: START,STOP, ENABLE, INTERLOCK
Power supply	220V±10%
